Experience

Software Developer Intern

September 2018 – Present

RedEye Apps, Las Vegas NV

- Fixing bugs and implementing features in our main web application (Vuejs, Symfony, MySQL)
- Designed and developed a reusable tooltip component to display user information using v-tooltip and following BEM patterns for CSS
- Wrote spec-style unit tests for Vuex using Mocha and Karma

Digital Operations Intern

June 2017 – September 2018

Barrick Gold, Henderson NV

- Deployed to production a Log Management solution based on Elasticsearch in AWS using terraform, and configured both the clients and the aggregators to ensure correct logging
- Developed serverless chatbot application using Dialogflow, Flask, and AWS Lambda
- Created a minimal web application using Flask which consumed OpsGenie's API's

Mathematics Tutor

February 2017 – June 2017

Mathnasium, Henderson NV

Projects

Portfolio Webpage

December 2018 - January 2019

Designed and developed a mobile-first, responsive webpage for my personal portfolio. Created the initial design in Adobe XD and developed the webpage using Less and Vue. Finally, deployed as a static website to S3, registered a custom domain with Route53, and added to CloudFront.

Tech: Adobe XD, Less, Vue.js, AWS | github.com/javillerenas/portfolio
